RPAP2 Polyclonal Antibody

Catalog No YP-Ab-01994 Isotype IgG Reactivity Human;Rat;Mouse; Applications WB;ELISA Gene Name RPAP2 Protein Name Putative RNA polymerase II subunit B1 CTD phosphatase RPAP2 Immunogen The antiserum was produced against synthesized peptide derived from human RPAP2. AA range:460-509 Specificity RPAP2 Polyclonal Antibody detects endogenous levels of RPAP2 protein. Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. Source Polyclonal, Rabbit,IgG Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. Dilution Western Blot: 1/500 - 1/2000. ELISA: 1/10000. Not yet tested in other applications. Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms RPAP2; C1orf82; Putative RNA polymerase II subunit B1 CTD phosphatase RPAP2; RNA polymerase II-associated protein 2 Observed Band 70kD Cell Pathway Cytoplasm . Nucleus . Shuttles between the cytoplasm and the nucleus in a CRM1-dependent manner. Tissue Specificity Brain,		
Reactivity Human;Rat;Mouse; Applications WB;ELISA Gene Name RPAP2 Protein Name Putative RNA polymerase II subunit B1 CTD phosphatase RPAP2 Immunogen The antiserum was produced against synthesized peptide derived from human RPAP2. AA range;460-509 Specificity RPAP2 Polyclonal Antibody detects endogenous levels of RPAP2 protein. Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. Source Polyclonal, Rabbit,IgG Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. Dilution Western Blot: 1/500 - 1/2000. ELISA: 1/10000. Not yet tested in other applications. Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms RPAP2; C1orf82; Putative RNA polymerase II subunit B1 CTD phosphatase RPAP2; RNA polymerase II-associated protein 2 Observed Band 70kD Cell Pathway Cytoplasm. Nucleus . Shuttles between the cytoplasm and the nucleus in a CRM1-dependent manner. Tissue Specificity Brain, Function function:Forms an interface between the RNA polymerase II enzyme and chaperone/scaffolding protein, suggesting thal it is required to connect RNA polymerase II to regulators of protein complex formation. similarity. Belongs to the RPAP2 family, subunit. Tightly associated with the RNA polymerase II complex., function:Forms an interface between the RNA polymerase II complex., belongs to the RPAP2 family, subunit. Tightly associated with the RNA polymerase II complex to polymerase II to regulators of protein complex formation. similarity. Belongs to the RPAP2 family, subunit. Tightly associated with the RNA polymerase II complex.	Catalog No	YP-Ab-01994
Applications WB;ELISA Gene Name RPAP2 Protein Name Putative RNA polymerase II subunit B1 CTD phosphatase RPAP2 Immunogen The antiserum was produced against synthesized peptide derived from human RPAP2. AA range:460-509 Specificity RPAP2 Polyclonal Antibody detects endogenous levels of RPAP2 protein. Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. Source Polyclonal, Rabbit,IgG Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. Dilution Western Blot: 1/500 - 1/2000. ELISA: 1/10000. Not yet tested in other applications. Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms RPAP2; C1orf82; Putative RNA polymerase II subunit B1 CTD phosphatase RPAP2; RNA polymerase II-associated protein 2 Observed Band 70kD Cell Pathway Cytoplasm . Nucleus . Shuttles between the cytoplasm and the nucleus in a CRM1-dependent manner. Tissue Specificity Brain, Function function:Forms an interface between the RNA polymerase II enzyme and chaperone/scaffolding protein, suggesting thal it is required to connect RNA polymerase II to regulators of protein complex formation . similarity. Belongs to the RPAP2 family ., subunit. Trightly associated with the RNA polymerase II complex., function:Forms an interface between the RNA polymerase II complex. Toplomy and chaperone/scaffolding protein complex formation . similarity. Belongs to the RPAP2 family ., subunit. Trightly associated with the RNA polymerase II complex complex formation . similarity. Belongs to the RPAP2 family ., subunit. Trightly associated with the RNA polymerase II complex.	Isotype	IgG
