CYP2E1 Polyclonal Antibody

Cytochrome P450 2E1. AA range:371-420 Specificity CYP2E1 Polyclonal Antibody detects endogenous levels of CYP2E1 protein. Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. Source Polyclonal, Rabbit,IgG Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. Dilution Western Blot: 1/500 - 1/2000. Immunofibitochemistry: 1/100 - 1/300. Immunofiburorescence: 1/200 - 1/1000. ELISA: 1/5000. Not yet tested in other applications. Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms CYP2E1; CYP2E; Cytochrome P450 2E1; 4-nitrophenol 2-hydroxylase; CYPII Cytochrome P450-J Observed Band 56kD Cell Pathway Endoplasmic reticulum membrane; Peripheral membrane protein. Mitochondrion inner membrane; Peripheral membrane protein. Post-translationally target inner membrane; Peripheral membrane protein. Post-translationally target inner membrane; Peripheral membrane as a membrane extrinsic protein. Tissue Specificity Brain, Liver, Lung, PCR rescued clones, catalytic activity: 4-nitrophenol + NADPH + O(2) = 4-nitrocatechol + NADP(+) + H(2)O., cofactor: Heme group, function: Metabolizes several precarcinogens, drugs, and solvents to reactive metabolites. Inactivates a number of drugs and xenoblotics and also bloactivates many xenoblotic substrates to their hepatoto or carcinogenic forms, induction: By ethanol and isoniazid, online information: CYP2E1 alleles, onlin		
Reactivity Human;Mouse;Rat Applications WB;IHC;IF;ELISA Gene Name CYP2E1 Protein Name Cytochrome P450 2E1 Immunogen The antiserum was produced against synthesized peptide derived from human Cytochrome P450 2E1. AA range:371-420 Specificity CYP2E1 Polyclonal Antibody detects endogenous levels of CYP2E1 protein. Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. Source Polyclonal, Rabbit, IgG Purification The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. Dilution Western Blot: 1/500 - 1/2000. Immunohistochemistry: 1/100 - 1/300. Immunofluorescence: 1/200 - 1/1000. ELISA: 1/5000. Not yet tested in other applications. Concentration 1 mg/ml Purity 290% Storage Stability -20°C/1 year Synonyms CYP2E1; CYP2E; Cytochrome P450 2E1; 4-nitrophenol 2-hydroxylase; CYPII Cytochrome P450-J Observed Band 56kD Cell Pathway Endoplasmic reticulum membrane protein. Mitochondrion inner membrane; Peripheral membrane protein. In Sch-translationally targeted to mitochondria. TOMM70 is required for the translocation across the mitochondrial outer membrane. After translocation into the matrix, associates with the inner membrane as a membrane extrinsic protein. Tissue Specificity Brain, Liver, Lung, PCR rescued clones, Catalytic activity: 4-nitrophenol + NADPH + O(2) = 4-nitrocatechol + NADP(+) + H(2)O., cofactor: Heme group, function: Metabolizes several precarcinogens, drugs, and solvents to reactive metabolites. Inactivates a number of drugs and expobiotics and also bioactivates many senobiotic substrates to their hepatotic information: CYP2E1 alterity; similarity: Belong information:	Catalog No	YP-Ab-02587
Applications WB;IHC;IF;ELISA Gene Name CYP2E1 Protein Name Cytochrome P450 2E1 Immunogen The antiserum was produced against synthesized peptide derived from human Cytochrome P450 2E1. Background	This gene encodes a member of the cytochrome P450 superfamily of enzymes. The cytochrome P450 proteins are monooxygenases which catalyze many reactions involved in drug metabolism and synthesis of cholesterol, steroids and other lipids. This protein localizes to the endoplasmic reticulum and is induced by ethanol, the diabetic state, and starvation. The enzyme metabolizes both endogenous substrates, such as ethanol, acetone, and acetal, as well as exogenous substrates including benzene, carbon tetrachloride, ethylene glycol, and nitrosamines which are premutagens found in cigarette smoke. Due to its many substrates, this enzyme may be involved in such varied processes as gluconeogenesis, hepatic cirrhosis, diabetes, and cancer. [provided by RefSeq, Jul 2008],
matters needing attention	Avoid repeated freezing and thawing!
Usage suggestions	This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
