Storage Stability Synonyms	-20°C/1 year  [Isoform 2]: Cytoplasm, cytoskeleton . Cytoplasm . Golgi apparatus . Cell membrane . Cell projection, ruffle membrane . The phosphorylated form is found in the cytoplasm while the non-phosphorylated form associates with the microtubules (By similarity). Localizes to the tips of microtubules (PubMed:27693509). Associated with the minus-end of microtubules via interaction with CAMSAP3 (PubMed:27693509). APC controls its localization to the cell membrane which is critical for its function in microtubule stabilization
