

Reg IV Monoclonal Antibody

Catalog No	YP-mAb-04115
Isotype	IgG
Reactivity	Human;Rat;Mouse;
Applications	WB
Gene Name	REG4
Protein Name	Regenerating islet-derived protein 4
Immunogen	Synthesized peptide derived from the Internal region of human Reg IV.
Specificity	Reg IV Monoclonal Antibody detects endogenous levels of Reg IV protein.
Formulation	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Source	Monoclonal, Mouse,IgG
Purification	The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.
Dilution	WB 1:500-1:2000
Concentration	1 mg/ml
Purity	≥90%
Storage Stability	-20°C/1 year
Synonyms	REG4; GISP; RELP; Regenerating islet-derived protein 4; REG-4; Gastrointestinal secretory protein; REG-like protein; Regenerating islet-derived protein IV; Reg IV
Observed Band	
Cell Pathway	Secreted .
Tissue Specificity	Highly expressed in the gastrointestinal tract including the duodenum, jejunum, ileum, ileocecum, appendix, descending colon, pancreas and small intestine. Weakly expressed in normal colon and stomach. Strongly expressed in most colorectal tumors than in normal colon. Preferentially expressed in mucinous tumors and in some cases neuro-endocrine tumors. Expressed in mucus-secreting cells and enterocyte-like cells. In small intestine expressed at the basal perinuclear zone of goblet cells.
Function	function:May be involved in inflammatory and metaplastic responses of the gastrointestinal epithelium.,induction:Up-regulated by mucosal injury from active Crohn's disease or ulcerative colitis. Up-regulated in colorectal tumors. Up-regulated in epithelial cells at regenerating margins of peptic ulcers in the stomach and duodenum.,online information:Regenerating protein IV,similarity:Contains 1 C-type lectin domain.,tissue specificity:Highly expressed in the gastrointestinal tract including the duodenum, jejunum, ileum, ileocecum, appendix, descending colon, pancreas and small intestine.
