

## **GP162 Monoclonal Antibody**

Isotype         IgG           Reactivity         Human;Mouse           Applications         WB           Gene Name         GPR162 GRCA           Protein Name         Probable G-protein coupled receptor 162 (Gene-rich cluster gene A protein)           Immunogen         Synthesized peptide derived from part region of human protein           Specificity         GP162 Monoclonal Antibody detects endogenous levels of protein.           Formulation         Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.           Source         Monoclonal, Mouse, IgG           Purification         The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.           Dilution         WB 1:500-1:2000           Concentration         1 mg/ml           Purity         ≥90%           Storage Stability         -20°C/1 year           Synonyms         Observed Band         64kD           Cell Pathway         Cell membrane; Multi-pass membrane protein.           Tissue Specificity         Brain, Lung, Uterus,           Function         function:Orphan receptor., similarity:Belongs to the G-protein coupled receptor 1 family. Situation is not known. Alternatively spliced transcript variants encoding different isoforms have been identified, [provided by RefSeq, Jull 2008], mover information, please consult technical personnel	Catalog No	YP-mAb-07404
Applications  Gene Name GPR162 GRCA Protein Name Probable G-protein coupled receptor 162 (Gene-rich cluster gene A protein) Immunogen Synthesized peptide derived from part region of human protein Specificity GP162 Monoclonal Antibody detects endogenous levels of protein.  Formulation Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.  Source Monoclonal, Mouse, IgG Purification The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.  Dilution WB 1:500-1:2000 Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms Observed Band 64kD Cell Pathway Cell membrane; Multi-pass membrane protein.  Tissue Specificity Brain, Lung, Uterus, Function function:Orphan receptor., similarity:Belongs to the G-protein coupled receptor 1 family.  Background This gene was identified upon genomic analysis of a gene-dense region at human chromosome 12p13. It appears to be mainly expressed in the brain; however, its function is not known. Alternatively spliced transport variants encoding different isoforms have been identified. [provided by RefSeq, Jul 2008], matters needing attention Usage suggestions This product can be used in immunological reaction related experiments. For	Isotype	IgG
Gene Name GPR162 GRCA  Protein Name Probable G-protein coupled receptor 162 (Gene-rich cluster gene A protein)  Immunogen Synthesized peptide derived from part region of human protein  Specificity GP162 Monoclonal Antibody detects endogenous levels of protein.  Formulation Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.  Source Monoclonal, Mouse, IgG  Purification The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.  Dilution WB 1:500-1:2000  Concentration 1 mg/ml  Purity ≥90%  Storage Stability -20°C/1 year  Synonyms  Observed Band 64kD  Cell Pathway Cell membrane; Multi-pass membrane protein.  Tissue Specificity Brain, Lung, Uterus,  Function function: Orphan receptor, similarity: Belongs to the G-protein coupled receptor 1 family.,  This gene was identified upon genomic analysis of a gene-dense region at human chromosome 12p13. It appears to be mainly expressed in the brain; however, its function is not known. Alternatively spliced transcript variants encoding different isoforms have been identified. [provided by RefSeq, Jul 2008],  Matters needing attention  Usage suggestions This product can be used in immunological reaction related experiments. For	Reactivity	Human;Mouse
Protein Name Probable G-protein coupled receptor 162 (Gene-rich cluster gene A protein)  Immunogen Synthesized peptide derived from part region of human protein  Specificity GP162 Monoclonal Antibody detects endogenous levels of protein.  Formulation Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.  Source Monoclonal, Mouse, IgG  Purification The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.  Dilution WB 1:500-1:2000  Concentration 1 mg/ml  Purity ≥90%  Storage Stability -20°C/1 year  Synonyms  Observed Band 64kD  Cell Pathway Cell membrane; Multi-pass membrane protein.  Tissue Specificity Brain, Lung, Uterus,  Function function: Orphan receptor., similarity: Belongs to the G-protein coupled receptor 1 family., however, its function is not known. Alternatively spliced transcript variants encoding different isoforms have been identified. [provided by RefSeq, Jul 2008], matters needing attention  Usage suggestions This product can be used in immunological reaction related experiments. For	Applications	WB
Immunogen         Synthesized peptide derived from part region of human protein           Specificity         GP162 Monoclonal Antibody detects endogenous levels of protein.           Formulation         Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.
