CD105 Polyclonal Antibody

Ab-13767
AD-15707
nan;Rat;Mouse;
; ELISA
G END
105
thesized peptide derived from human CD105
s antibody detects endogenous levels of human CD105
uid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
/clonal, Rabbit,IgG
antibody was affinity-purified from mouse ascites by affinity-chromatography og specific immunogen.
1:500-2000, ELISA(peptide)1:5000-20000

loglin (CD antigen CD105)
D
membrane ; Single-pass type I membrane protein .
ected on umbilical veil endothelial cells (PubMed:10625079). Detected in centa (at protein level) (PubMed:1692830). Detected on endothelial cells bMed:1692830).
ease:Defects in ENG are the cause of hereditary hemorrhagic telangiectasia a 1 (HHT1) [MIM:187300, 108010]; also known as Osler-Rendu-Weber
drome 1 (ORW1). HHT1 is an autosomal dominant multisystemic vascular plasia, characterized by recurrent epistaxis, muco-cutaneous telangiectases, tro-intestinal hemorrhage, and pulmonary (PAVM), cerebral (CAVM) and atic arteriovenous malformations; all secondary manifestations of the erlying vascular dysplasia. Although the first symptom of HHT1 in children is erally nose bleed, there is an important clinical heterogeneity.,function:Major coprotein of vascular endothelium. May play a critical role in the binding of othelial cells to integrins and/or other RGD receptors.,subunit:Homodimer that ns an heteromeric complex with the signaling receptors for transforming wth factor-beta: TGF-beta receptors I and/or II. It

	transforming growth factor beta receptor complex and it binds to the beta1 and beta3 peptides with high affinity. Mutations in this gene cause hereditary hemorrhagic telangiectasia, also known as Osler-Rendu-Weber syndrome 1, an autosomal dominant multisystemic vascular dysplasia. This gene may also be involved in preeclampsia and several types of cancer. Alternatively spliced transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, May 2013],
matters needing attention	Avoid repeated freezing and thawing!
Usage suggestions	This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
