

Olfactory receptor 10X1 Monoclonal Antibody

Catalog No	YP-mAb-13458
Isotype	IgG
Reactivity	Human;Rat;Mouse;
Applications	WB
Gene Name	OR10X1
Protein Name	Olfactory receptor 10X1
Immunogen	The antiserum was produced against synthesized peptide derived from human OR10X1. AA range:216-265
Specificity	Olfactory receptor 10X1 Monoclonal Antibody detects endogenous levels of Olfactory receptor 10X1 protein.
Formulation	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Source	Monoclonal, Mouse,IgG
Purification	The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.
Dilution	WB 1:500-1:2000
Concentration	1 mg/ml
Purity	≥90%
Storage Stability	-20°C/1 year
Synonyms	
Observed Band	28kD
Cell Pathway	Cell membrane; Multi-pass membrane protein.
Tissue Specificity	
Function	function:Odorant receptor .,polymorphism:A stop codon at position Trp-66 in the gene coding for this protein is responsible for functional diversity thus producing a pseudogene. The stop codon is more frequent in African-Americans than in non-Africans.,similarity:Belongs to the G-protein coupled receptor 1 family.,
Background	Olfactory receptors interact with odorant molecules in the nose, to initiate a neuronal response that triggers the perception of a smell. The olfactory receptor proteins are members of a large family of G-protein-coupled receptors (GPCR) arising from single coding-exon genes. Olfactory receptors share a 7-transmembrane domain structure with many neurotransmitter and hormone receptors and are responsible for the recognition and G protein-mediated transduction of odorant signals. The olfactory receptor gene family is the largest in the genome. The nomenclature assigned to the olfactory receptor genes and proteins for this organism is independent of other organisms. This olfactory receptor gene is a segregating pseudogene, where some individuals have an

allele that encodes a functional olfactory receptor, while other individuals have an allele encoding a

matters needing attention

Avoid repeated freezing and thawing!

Usage suggestions

This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
