

Olfactory receptor 13C3 Monoclonal Antibody

Catalog No YP-mAb-13464 Isotype IgG Reactivity Human;Rat;Mouse; Applications WB Gene Name OR13C3 Protein Name Olfactory receptor 13C3 Immunogen The antiserum was produced against synthesized peptide derived from human OR13C3. AA range:201-250 Specificity Olfactory receptor 13C3 Monoclonal Antibody detects endogenous levels of Olfactory receptor 13C3 protein. Formulation Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. Source Monoclonal, Mouse, IgG Purification The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen. Dilution WB 1:500-1:2000 Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms OR13C3; Olfactory receptor 13C3; Olfactory receptor OR9-8 Observed Band 35kD Cell Pathway Cell membrane; Multi-pass membrane protein. Tissue Specificity Function Function caution:It is uncertain whether Met-1 or Met-31 is the initiator, function: Odorant receptor , similarity:Belongs to the G-p		
Reactivity Human;Rat;Mouse; Applications WB Gene Name OR13C3 Protein Name Olfactory receptor 13C3 Immunogen The antiserum was produced against synthesized peptide derived from human OR13C3. Dilution WB 1:500-1:2000 Concentration 1 mg/ml Purity ≥90% Storage Stability -20°C/1 year Synonyms OR13C3; Olfactory receptor 13C3; Olfactory receptor OR9-8 Observed Band 35kD Cell Pathway Cell membrane; Multi-pass membrane protein. Tissue Specificity Function caution:It is uncertain whether Met-1 or Met-31 is the initiator, function:Odorant receptor .similiarity.Belongs to the G-protein coupled receptor 1 family, or olfactory receptors that triggers the perception of a smell. The olfactory receptor proteins are a members of a large family of G-protein-coupled receptors (GPCR) arising from single coding-exon genes. Olfactory receptors share a 7-transmembrane domain structure with many neurotransmitter and hormone receptors and are responsible for the recognition and G protein-mediated the genome. The nomenclature assigned to the olfactory receptor genes and proteins for this organism is independent of other organisms. [Provided by the genome. The nomenclature assigned to the olfactory receptor genes and proteins for this organism is independent of other organisms. [Provided by the genome. The nomenclature assigned to the olfactory receptor genes and proteins for this organism is independent of other organisms. [Provided by	Catalog No	YP-mAb-13464
