

# NPEPL1 Mouse mAb

|                                    |                                                                                                                                              |
|------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Catalog No</b>                  | YP-mAb-19182                                                                                                                                 |
| <b>Isotype</b>                     | IgG                                                                                                                                          |
| <b>Reactivity</b>                  | Human;Mouse;Rat                                                                                                                              |
| <b>Applications</b>                | WB                                                                                                                                           |
| <b>Gene Name</b>                   | NPEPL1 KIAA1974                                                                                                                              |
| <b>Immunogen</b>                   | Synthesized peptide derived from human NPEPL1                                                                                                |
| <b>Specificity</b>                 | This antibody detects endogenous levels of NPEPL1 at Human, Mouse                                                                            |
| <b>Formulation</b>                 | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                      |
| <b>Source</b>                      | Monoclonal,Mouse,IgG                                                                                                                         |
| <b>Purification</b>                | The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.                         |
| <b>Dilution</b>                    | WB 1:500-2000                                                                                                                                |
| <b>Concentration</b>               | 1 mg/ml                                                                                                                                      |
| <b>Purity</b>                      | ≥90%                                                                                                                                         |
| <b>Storage Stability</b>           | -20°C/1 year                                                                                                                                 |
| <b>Synonyms</b>                    | aminopeptidase like 1;KIAA1974;NPEPL1;Probable aminopeptidase NPEPL1; NPEPL1 KIAA1974;Probable aminopeptidase NPEPL1 (Aminopeptidase-like 1) |
| <b>Observed Band</b>               | 52 kDa                                                                                                                                       |
| <b>Calculated Molecular Weight</b> | 523 aa, 56 kDa                                                                                                                               |
| <b>Cell Pathway</b>                | Ubiquitously expressed.                                                                                                                      |
| <b>Tissue Specificity</b>          |                                                                                                                                              |
| <b>Function</b>                    | Probably catalyzes the removal of unsubstituted N-terminal amino acids from various peptides.                                                |
| <b>Background</b>                  |                                                                                                                                              |
| <b>matters needing attention</b>   | Avoid repeated freezing and thawing!                                                                                                         |
| <b>Usage suggestions</b>           | This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.            |
