

Myomesin-2 Polyclonal Antibody

Catalog No	YP-Ab-03163
Isotype	IgG
Reactivity	Human;Mouse;Monkey
Applications	WB;ELISA;IHC
Gene Name	MYOM2
Immunogen	The antiserum was produced against synthesized peptide derived from human MYOM2. AA range:612-661
Specificity	Myomesin-2 Polyclonal Antibody detects endogenous levels of Myomesin-2 protein.
Formulation	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Source	Polyclonal, Rabbit,IgG
Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Dilution	WB 1:500-2000;IHC-p 1:50-300; ELISA 2000-20000
Concentration	1 mg/ml
Purity	≥90%
Storage Stability	-20°C/1 year
Synonyms	Myomesin-2;Myomesin family member 2;M-protein;165 kDa titin-associated protein;165 kDa connectin-associated protein;MYOM2
Observed Band	165kD
Calculated Molecular Weight	165kD
Cell Pathway	Cytoplasm, myofibril, sarcomere, M line .
Tissue Specificity	PNS,Skeletal muscle,
Function	function:Major component of the vertebrate myofibrillar M band. Binds myosin, titin, and light meromyosin. This binding is dose dependent.,similarity:Contains 5 fibronectin type-III domains.,similarity:Contains 5 Ig-like C2-type (immunoglobulin-like) domains.,subunit:Interacts with TTN/titin.,
Background	The giant protein titin, together with its associated proteins, interconnects the major structure of sarcomeres, the M bands and Z discs. The C-terminal end of the titin string extends into the M line, where it binds tightly to M-band constituents of apparent molecular masses of 190 kD and 165 kD. The predicted MYOM2 protein contains 1,465 amino acids. Like MYOM1, MYOM2 has a

unique N-terminal domain followed by 12 repeat domains with strong homology to either fibronectin type III or immunoglobulin C2 domains. Protein sequence comparisons suggested that the MYOM2 protein and bovine M protein are identical. [provided by RefSeq, Jul 2008],

matters needing attention

Avoid repeated freezing and thawing!

Usage suggestions

This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
