

CPA5 Polyclonal Antibody

Catalog No	YP-Ab-03784
Isotype	IgG
Reactivity	Human;Mouse
Applications	WB;ELISA
Gene Name	CPA5
Immunogen	The antiserum was produced against synthesized peptide derived from human CPA5. AA range:91-140
Specificity	CPA5 Polyclonal Antibody detects endogenous levels of CPA5 protein.
Formulation	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Source	Polyclonal, Rabbit,IgG
Purification	The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.
Dilution	Western Blot: 1/500 - 1/2000. ELISA: 1/20000. Not yet tested in other applications.
Concentration	1 mg/ml
Purity	≥90%
Storage Stability	-20°C/1 year
Synonyms	Carboxypeptidase A5;CBPA5_HUMAN;CPA 5;CPA5;FLJ35969
Observed Band	50kD
Calculated Molecular Weight	50kD
Cell Pathway	Secreted .
Tissue Specificity	Expression is very low or not detectable.
Function	catalytic activity:Release of a C-terminal amino acid, but little or no action with - Asp, -Glu, -Arg, -Lys or -Pro.,cofactor:Binds 1 zinc ion per subunit., similarity:Belongs to the peptidase M14 family.,tissue specificity:Expression is very low or not detectable.,
Background	Carboxypeptidases have functions ranging from digestion of food to selective biosynthesis of neuroendocrine peptides. Members of the A/B subfamily of carboxypeptidases, such as CPA5, contain an approximately 90-amino acid pro region that assists in the folding of the active carboxypeptidase domain. Cleavage of the pro region activates the enzyme (Wei et al., 2002 [PubMed 11836249]).[supplied by OMIM, Mar 2008],

**matters needing attention**

Avoid repeated freezing and thawing!

Usage suggestions

This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
