

# DLEU1 Mouse mAb

|                                    |                                                                                                                                                            |
|------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Catalog No</b>                  | YP-mAb-18551                                                                                                                                               |
| <b>Isotype</b>                     | IgG                                                                                                                                                        |
| <b>Reactivity</b>                  | Human;Mouse;Rat                                                                                                                                            |
| <b>Applications</b>                | WB                                                                                                                                                         |
| <b>Gene Name</b>                   | DLEU1 LEU1 XTP6                                                                                                                                            |
| <b>Immunogen</b>                   | Synthesized peptide derived from human DLEU1                                                                                                               |
| <b>Specificity</b>                 | This antibody detects endogenous levels of DLEU1 at Human                                                                                                  |
| <b>Formulation</b>                 | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                                    |
| <b>Source</b>                      |                                                                                                                                                            |
| <b>Purification</b>                | The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.                                       |
| <b>Dilution</b>                    | WB 1:500-2000                                                                                                                                              |
| <b>Concentration</b>               | 1 mg/ml                                                                                                                                                    |
| <b>Purity</b>                      | ≥90%                                                                                                                                                       |
| <b>Storage Stability</b>           | -20°C/1 year                                                                                                                                               |
| <b>Synonyms</b>                    | DLEU1 LEU1 XTP6;Leukemia-associated protein 1 (Deleted in lymphocytic leukemia 1) (HBV X-transactivated gene 6 protein) (HBV XAg-transactivated protein 6) |
| <b>Observed Band</b>               | 9kD                                                                                                                                                        |
| <b>Calculated Molecular Weight</b> | 3 kDa; 9kD(Calculated).                                                                                                                                    |
| <b>Cell Pathway</b>                |                                                                                                                                                            |
| <b>Tissue Specificity</b>          |                                                                                                                                                            |
| <b>Function</b>                    | May act as a tumor suppressor.                                                                                                                             |
| <b>Background</b>                  |                                                                                                                                                            |
| <b>matters needing attention</b>   | Avoid repeated freezing and thawing!                                                                                                                       |
| <b>Usage suggestions</b>           | This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.                          |
