

ANGP2 Monoclonal Antibody

Catalog No	YP-mAb-16093
Isotype	IgG
Reactivity	Human;Mouse;Rat
Applications	WB
Gene Name	ANGPT2
Immunogen	Synthesized peptide derived from human ANGP2
Specificity	This antibody detects endogenous levels of human ANGP2
Formulation	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Source	Monoclonal, Mouse,IgG
Purification	The antibody was affinity-purified from mouse antiserum by affinity-chromatography using epitope-specific immunogen.
Dilution	WB 1:500-1:2000
Concentration	1 mg/ml
Purity	≥90%
Storage Stability	-20°C/1 year
Synonyms	ANGP2;ANGPT2;Angiopoietin-2 (ANG-2)
Observed Band	55kD
Calculated Molecular Weight	55kD
Cell Pathway	Secreted .
Tissue Specificity	Colon,Lung,Substantia nigra,Umbilical vein endothelial cell,
Function	function: Binds to TIE2 receptor and counteracts blood vessel maturation/stability mediated by angiopoietin-1. Its function may be context-dependent. In the absence of angiogenic inducers, such as VEGF, ANG2-mediated loosening of cell-matrix contacts may induce endothelial cell apoptosis with consequent vascular regression. In concert with VEGF, it may facilitate endothelial cell migration and proliferation, thus serving as a permissive angiogenic signal., online information: Angiopoietin entry, similarity: Contains 1 fibrinogen C-terminal domain.,
Background	The protein encoded by this gene is an antagonist of angiopoietin 1 (ANGPT1) and endothelial TEK tyrosine kinase (TIE-2, TEK). The encoded protein disrupts the vascular remodeling ability of ANGPT1 and may induce endothelial cell

apoptosis. Three transcript variants encoding three different isoforms have been found for this gene. [provided by RefSeq, Jul 2008],

matters needing attention

Avoid repeated freezing and thawing!

Usage suggestions

This product can be used in immunological reaction related experiments. For more information, please consult technical personnel.
